

## CHP Journal price changes

### Description

[vc\_row][vc\_column][vc\_column\_text]Readers,

As you know, CHPI is funded by sales of articles and subscriptions to our readers. We have not raised prices for over 10 years. Increased operating costs require us to adjust our prices.

Effective July 11, 2022, article prices have returned to the pre-pandemic rate of \$40.

Effective September 1, 2022, annual subscription prices will increase to \$150.

*Canadian Health Policy* Journal is an independent platform for information and ideas that shape health policy thinking in Canada. Thank you for your continued interest in the Journal and support for the Institute.[/vc\_column\_text][/vc\_column][/vc\_row]
