

Evidence that innovative medicines improve health and economic outcomes:
focused literature review.

Description

Evidence that innovative medicines improve health and economic outcomes: focused literature review.

CITATION: Canadian Health Policy Institute (CHPI). Evidence that innovative medicines improve health and economic outcomes: focused literature review. *Canadian Health Policy*, April 2019. www.canadianhealthpolicy.com.

ACCESS TO INNOVATIVE MEDICINES RESEARCH PROGRAM: This paper is part of a series of reports produced by CHPI's Access to Innovative Medicines research program. The reports are corporately authored and edited based on proprietary template models and methods that are intended to facilitate regular updates. The design and content are a cumulative reflection of the diverse contributions collectively attributable to the CHPI-affiliated researchers who may have variously participated in updating each edition. Data sources, methods and editorial presentation may evolve from previous editions. The program is partly funded by the following sponsor-subscribers: <https://www.canadianhealthpolicy.com/pages/programs.html>. The analysis, conclusions and opinions expressed in this paper do not necessarily reflect the views of the sponsor-subscribers.
