

Medical Resources in Canada and OECD countries. 2019 Edition.

Description

Medical Resources in Canada and OECD countries. 2019 Edition

The objective of this annual report is to examine the availability of medical resources in the Canadian health system compared to a group of economic peer countries in the Organization for Economic Cooperation and Development (OECD). This study used the most recent (2017 or latest year) comparable data on 10 indicators of the availability of medical resources in national health systems including: physicians, nurses, hospital beds, MRI, CT, PET, Mammographs, new medicines and medical devices.
